

Cervidae

INTERSTATE

(Movement into South Dakota)

Tuberculosis (*Mycobacterium bovis*) - For more information - [Link](#)

CVI (Certificate of Veterinary Inspection) and entry permit number required.

Official Identification is required.

Chronic Wasting Disease (CWD): One of the following Statements must appear on CVI –

“All Cervidae identified on this certificate of veterinary inspection originate from a herd which has been determined to have certified CWD cervid herd status by the animal health official of the State of South Dakota.”

OR

“All Cervidae identified on this certificate of veterinary inspection originate from a herd which has been determined to have the stated monitored status by the animal health official of the State of South Dakota.”

OR

“All Cervidae identified on this certificate of veterinary inspection originate from a herd in which all cervidae have been kept for at least three years or into which they were born. There has been no exposure to or additions from any other source in the past three years. There have been no diagnosis, signs, or epidemiologic evidence of CWD in this herd for the past three years. Records and causes of death for the past three years in this herd of origin are available to the animal health official of the state of origin.”

The following statement must appear on the CVI and must be signed by the owner attesting to the statement.

“No animal has ever originated from, or been a member of a herd, where CWD has been diagnosed, or been a member of a CWD traceback or trace forward herd in the past five years.”
