

Reportable Disease List

Any licensed veterinarian, any person operating a diagnostic laboratory, or any person who has been informed, recognizes or should recognize by virtue of education, experience, or occupation, that any animal or animal product is or may be affected by, or has been exposed to, or may be transmitting or carrying any of the following conditions, must report that information.

What to Report:

- Any incidents involving undiagnosed disease conditions causing high morbidity and/or high mortality must be reported immediately.
- Any endemic disease or parasitic infestation with an unconventional presentation.
- ***Foreign Animal Disease:** A foreign animal disease is a disease which is native to another country, but is not currently found in domestic animals, domestic poultry, wildlife or the environment of the United States.
- **Zoonoses/Zoonotic Diseases:** Diseases and infections that are naturally transmitted between vertebrate animals and humans.
- **Vector-borne diseases of public health significance** (e.g. Rocky Mountain Spotted Fever, Lyme disease)
- World Organisation for Animal Health Listed Disease

Report Immediately upon Discovery	Report within Two Days of Discovery	Report Weekly (Diagnostic Facilities)
*Any foreign animal disease Any new emerging disease Syndromes Anthrax Avian Chlamyophilosis (Ornithosis - Psittacosis) Avian Encephalomyelitis (Infectious Encephalomyelitis) Avian Infectious Laryngotracheitis Avian Influenza Avian Metapneumovirus (Turkey rhinotracheitis) Brucellosis Equine Encephalomyelitis (Eastern & Western) EHV-1 associated diseases (respiratory, abortion, neurologic/EHM) Equine Infectious Anemia (EIA) Pseudorabies Pullorum Disease Rabies Toxicosis Transmissible Spongiform Encephalopathies Trichomoniasis Tuberculosis Vesicular conditions	Anaplasmosis Campylobacteriosis (Campylobacter fetus venerealis) Enzootic Abortion of Ewes (Chlamydophila) Salmonellosis Swine Enteric Coronavirus Disease (SECD) PEDV, PDCoV, and TGE West Nile Virus	BLV (Enzootic Bovine Leukosis) Bovine Viral Diarrhea Caprine Arthritis/Encephalitis Infectious Bovine Rhinotracheitis (IBR-IPV) Maedi-Visna (Ovine Progressive Pneumonia) Mycoplasma gallisepticum (MG) Mycoplasma synoviae (MS) Paratuberculosis (Johne's disease) Porcine Reproductive and Respiratory Syndrome (PRRS)
